

JOB POSTING: Exercise Physiologist

START DATE: Negotiable – August preferred

EMPLOYMENT STATUS: Full-time

CANADIAN SPORT INSTITUTE CALGARY

The Canadian Sport Institute (CSI) Calgary's mission is to provide a world-leading, multisport, daily training environment for podium athletes and coaches, through expert leadership, services and programs. To accomplish this goal the CSI Calgary provides a variety of programs and services for the high-performance athlete. One such service is in the area of exercise physiology testing and monitoring, which the Sport Performance Laboratory provides to over 400 high performance athletes every year.

NATURE OF THE WORK:

The CSI Calgary is currently seeking an Exercise Physiology Technician. This position reports directly to the Sport Performance Laboratory (SPL) Lead and works closely with the Director of Development and Strategic Programs. The normal working hours of the position are 40 hours per week, Monday to Friday; however, flexibility in the schedule and additional time is required and will involve either longer days (coming in early, staying late) and working on evenings and weekends. This position may require the successful candidate to travel and work with teams in the field.

As an Exercise Physiologist, your primary purpose will be to organize and conduct exercise testing in all areas of exercise physiology, including anthropometry, anaerobic and aerobic capacity, strength and flexibility. As an integral member of the exercise physiology team, you will be required to assist with the routine operation of the SPL, maintain laboratory equipment, and conduct administrative duties as assigned. You will assist with ongoing research data collection and analysis. The ideal candidate would have an interest in working with development level athletes and have a passion for anthropometry.

The CSI Calgary is seeking an energetic individual who is passionate about working as an exercise physiologist with elite and developing athletes and who has excellent communication (oral and written), interpersonal, and organizational skills.

RÉSEAU DES INSTITUTS DU SPORT

QUALIFICATIONS/EXPERTISE:

- Minimum of an undergraduate degree in an exercise science related field (i.e. Kinesiology, Exercise Physiology, and Human Kinetics).
- Advanced level of Exercise Physiology credentials/certifications: (CSEP, or ACSM).
- Certified phlebotomist would be an asset or willing to obtain.
- A strong interest and desire to develop anthropometry skills and knowledge would be an asset.
- Experience in conducting advanced exercise physiological testing in a high-performance sport environment
- Strong communication skills (verbal and written) and the ability to relate to a variety of personalities.
- An ability to organize, problem solve, and multitask in a highly-integrated team setting
- Ability to work in a fast-paced environment with a high degree of independence and initiative.
- A demonstrated history of being self-motivated, resourceful and capable of making independent decisions within established guidelines.
- Computer skills: high level proficiencies with Microsoft Office Suite
- Successful completion of a Criminal Records Check

Please send your cover letter and resume to: careers@csicalgary.ca

We thank all applicants, but only those individuals selected for further consideration will be contacted.
